

# CONFIGURING SAP SOFTWARE FOR THE ARMY

## ERP stands for Enterprise Resource Planning

Implementing an ERP solution will give the Army a consistent near real-time picture of its supply chain information across all levels

- Tried, tested, and implemented throughout government, industry, and DoD.
- Takes an enterprise approach to **integrate** business processes
- **Optimizes** enterprise elements like Supply, Property, Finance, & Human Resource management
- Provides information for **timely** decision-making & performance measurement

### ERP:

- **Facilitates Reengineering**
- **Revolutionary software with potential for enabling dramatic improvement**
- **Minimizes non-value task**

**Government,  
Military, and  
Industry**

**SAP** Systems, Applications and Products

- **Business processes are adapted to the selected ERP solution**
  - *No custom code* (can be enhanced) - *No unique versions* (tailorable) - *No Beta versions*
- **An integrated solution – Leveraging Business Process reengineering to enhance an already powerful COTS (Commercial Of The Shelf) product**
- **Web-based with assured and redundant telecommunications infrastructure**

GCSS-Army is an ERP (Enterprise Resource Planning) initiative. This means that GCSS-Army will fulfill all tactical Army logistics requirements via a single, Army-logistics-domain-wide “enterprise” solution grounded in a common master logistics database.

The Army selected SAP’s enterprise application solution as the foundation for GCSS-Army. SAP is the world’s largest enterprise applications software provider, and has a proven track record of delivering business solutions to more than 34,000 customers in more than 120 countries and 25 industries around the world.

Powered by SAP and building on industry best practices, SAP delivers tailored industry solutions to help defense organizations transform their business operations to better support and deliver on their mission. SAP clients include the United States Postal Service, U.S. Navy, Defense Logistics Agency and many of the world’s most recognizable brands including: Pratt and Whitney, Coca-Cola Company, Caterpillar, Microsoft, Siemens and Texas Instruments.

SAP® is the registered trademark of SAP AG in Germany and in several other countries.
